

All Woman COVID-19 Precautions

- Located in office condominium complex—not in a large medical center where ill patients are being treated
- Telephone screening prior to arrival to ensure no one with any COVID-19 systems comes to the office
- Strict protocol of patients:
 - Waiting in car until they can be immediately be escorted to an exam room; no one permitted to wait in lobby or waiting room area
 - Vestibule area where patients are required to put on masks and gloves prior to entering office
- Another COVID-check in exam room, including review of systems and temperature checks
- Office (including bathrooms!) sanitized with medical grade disinfectants between patients
- All staff wearing double layer masks with KN95 filters
- Patients permitted to leave exam room only when office is clear of other patients
- Office open only to staff and patients: no designated drivers, family members, vendors, sales reps, courriers permitted in office—deliveries and pick ups happen in office vestibule, not in office proper
- Staff receiving intermittent random COVID-19 testing
